Dear Madam, Dear Sir,

With this Service Chart, we would like to provide you with some information about our facility. CENTRO KOS srl was established in November 1987 in the city of Sassuolo.

CENTRO KOS **MISSION** includes providing medical and physio-therapeutic services, as well as any other activity related to physical therapy, rehabilitation and massage therapy, as well as related or connected activities.

Over the years, the facility has developed activities in various specialized branches and has obtained **Health Authorization** for orthopedics, physiatry, ultrasound, vascular surgery (ecodoppler), and sports medicine.

For the protection of citizens' health, CENTRO KOS is guided by the following principles:

- **Freedom of choice:** The citizen's freedom to choose is the first fundamental element.
- **Right to information:** Citizens must be informed about what is necessary to protect their health.
- **Appropriateness of healthcare services:** KOS Center is committed to complying with all general and specific requirements stipulated by regulations for institutional accreditation.
- **Continuity:** Continuity and regularity of care are elements that guarantee effectiveness.
- **Right to criticize:** Observations, advice, and criticism are indicators of quality.

In order to ensure continuous improvement of our services, we collect **CUSTOMER SATISFACTION SURVEYS** during one or more periods of the year.

Additionally, a **COMPLAINT FORM** is available at the Reception Desk, in order to report any issue to the Management.

CENTRO KOS aims to achieve the following **OBJECTIVES**:

- To pursue the **highest level of patient satisfaction** in terms of the **quality of services** and the **level of hospitality**.
- To provide the **utmost attention to the needs of our patients**, based on the extensive **experience** gained and through **continuous training and development** of our medical and paramedical staff.
- To pursue **maximum transparency** towards patients through accurate and comprehensive definition of all aspects of the service.

- To respect the **delivery times** of confirmed treatments.
- To strive for **continuous improvement** of the expected quality standards of the Healthcare Service.
